U.S. Mail/In-Person: Union County Conservation District
Attention: Savannah Rhoads/Winfield Creek Barnyard Projects RFP
155 N 15th Street, Lewisburg, PA 17837

Brief Description of Project:

Project 1 – Walter: The scope of the Walter project includes excavation and building of a 52.5 ft x 40 ft roofed Heavy Use Area (HUA) and solid manure stacking structure and associated practices. The area designated as the HUA will have concrete slab and curbs for feeding the animals and to facility manure collection. In addition, reinforced gravel will be installed on the access roads and cattle walkways.

Project 2 – Ulrich: The scope of the Ulrich project includes excavation and building of a 22 ft x 32 ft roofed structure over the concrete barnyard and associated practices. In addition, reinforced gravel will be installed on the access roads and cattle walkways. A grassed waterway will also be installed through the crop fields.

Prevailing wage rates apply to both projects. The estimated cost for both projects combined is between \$250,000 - \$350,000. Target construction is Spring/Summer 2024.

Additional information regarding these projects will be included in the RFP and Project Construction Plans.
